

Arrangements for Medication Delivery/Collection during COVID-19 pandemic

From the 30th March medication collection times are Mon-Fri 10.00am – 1.00pm

Prescriptions can be dropped at the surgery during opening times and also out of working hours through the surgery letter box

If you are in the self isolating or in a vulnerable bracket and unable get to the surgery, the Brighstone community support hub has set a process whereby you can request for your medication to be delivered to you.

Your best option would be if a friend, neighbour or relative who is safe to act on your behalf could agree to act as your representative. They can give their information at the surgery, also drop off your repeat prescription to the surgery.

If you do not have anyone you can nominate as your representative please telephone the surgery and request for your medication to be delivered by the community hub volunteer.

The community hub volunteer will be known to the surgery and they will drop the medication on your doorstep, ring the bell or knock the door and check from a safe distance that you have accessed your medication.

If are unable to nominate a representative or you have difficulty contacting the surgery please call John Cirrone on 740440 who will assist with the process to ensure your medication is delivered.

If you are fit and well and require some medication please collect it from the surgery during the new times mentioned keeping a safe distance from others in the surgery and the two serving counters.
